

Protect Your Golfers Year-Round with Driving Range Sun Shelters

Turf Net Sports Supplies is pleased to offer **Driving Range Sun Shelters**, the latest in premium protection for your golfers. Designed for Canadian conditions and built to last, these shelters provide essential coverage from sun, rain, and wind, enhancing player comfort and extending your range's usability.

Key Features:

✓ Durable Aluminum Construction

- Heavy-duty 1" or 1¼" square aluminum tubing for superior strength
- Reinforced design with bolted connections and plated fasteners for long-term durability

✓ Weather-Resistant Roof System

- Fire-resistant 18oz PVC fabric (CAN/ULC S109 certified)
- Mold and mildew resistant with a **10-year warranty**
- Sloped roof for efficient water drainage
- Secure webbing straps, buckles, and integrated D-rings for optional walls

✓ Customizable Layouts

- Available in **10', 12', and 15' widths**
- Modular design allows units to be connected side by side for any desired length
- Optional back, side, and partition walls available in various colors, mesh, or solid fabric

✓ Cantilever Roof for Maximum Clearance

- **12' front leg clearance** and **10'6" rear leg clearance**
- Sloped roof design for optimal player protection without obstructing swings

✓ Flexible Anchoring Options

- Choose from steel stakes or concrete anchors included with every unit
- Engineered base plates for secure installation on any surface

✓ Easy Assembly

- Straightforward installation with complete instructions included
- Lightweight aluminum frame makes setup fast and efficient

Perfect for:

- Golf Courses & Driving Ranges
- Indoor Golf Facilities & Academies
- Resorts & Multi-Sport Facilities
